HIALEAH FAMILY RECEIVES A RECONSTRUCTED HOME

Hialeah, Florida –

You are once again cordially invited to join the Mayor and City Council as they congratulate a Hialeah family in celebration of their recently built new home. This property was re-built through our Demolition and Reconstruction Program.

Jorge Luis Chuy and his family of five, have lived in Hialeah for 18 years. Natives from Cuba, they have spent the last 15 years in the home on East 4 Street. His current residence was completely demolished and re-built from the ground up into a beautiful reconstructed home his family can enjoy for many years to come.

Through funding provided by the State Housing Initiative Partnership (SHIP) Program, the City of Hialeah is working to preserve our housing stock, increase property values, and provide decent, safe, sanitary and affordable housing to our low-and moderate-income families. This program provides assistance to very low and low and moderate income families with the demolition and reconstruction of their home on their existing lot. The objective of the program is to correct health and safety hazards and create safe and sanitary homes for these families. The Chuy Family Home Project cost a total of \$107,633.00

We look forward to seeing you there to welcome the Chuy Family to their new home courtesy of the City of Hialeah.

When – Tuesday, June 30, 2009, at 11:30 a.m.

Where – 150 East 4 Street
